

RMIK

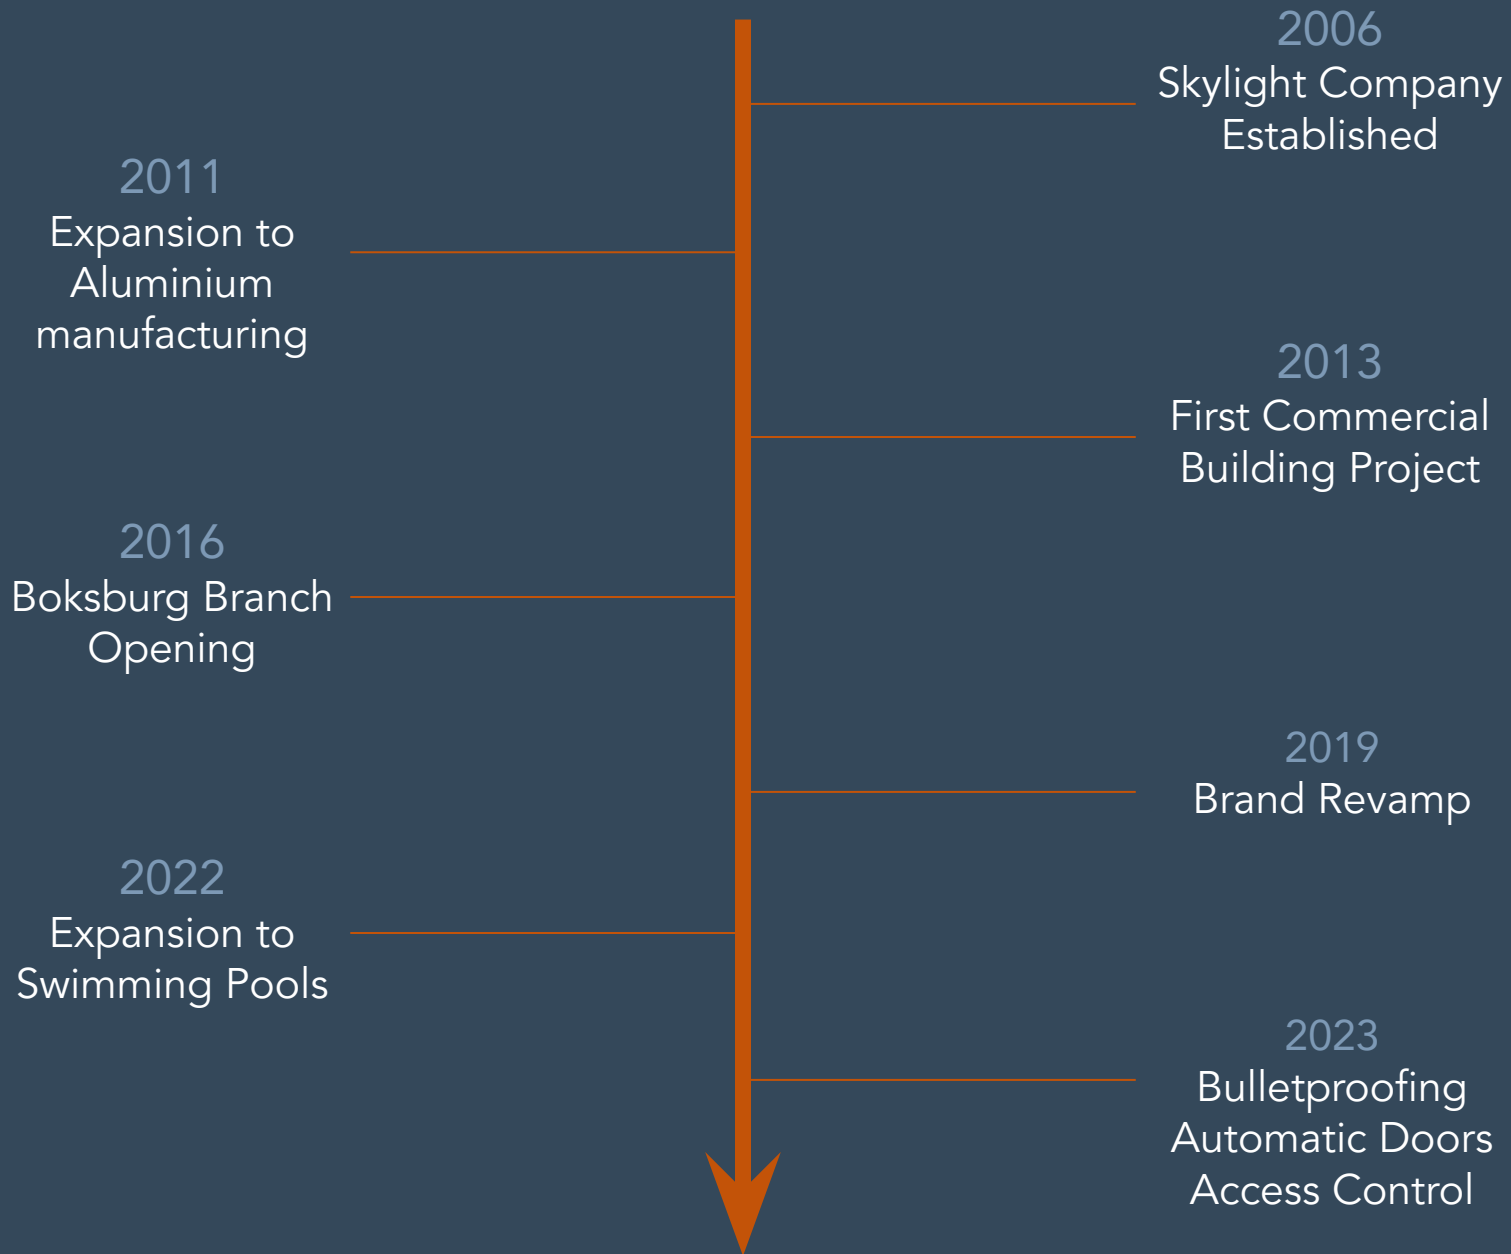

Throughout history, good lighting has been a well sought after commodity. At RMK we not only understand the practical importance of light, but also the spiritual and emotional value of walking and living in the light.

While our products and installations improve aesthetics, our main objective is to build partnerships with our customers that bring light to more than just a room.

Let there be light!

Time Line

we aim to not only *design*
manufacture and *install*
our products, but to take a *holistic*
approach to any project,
offering *advice* and *solving*
problems
thanks to our extensive
experience in the industry, often
resulting in us offering *various*
other services that compliment
the aluminium and skylight
installations

Mission

our vision is to be the *preferred*
supplier of glass and aluminium
products in *south africa*

Vision

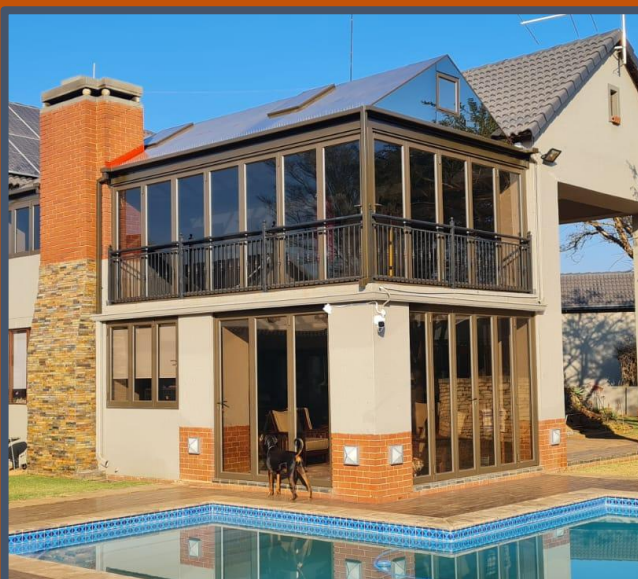

*G*iving back
*R*enewing the mind
*A*cceptance facilitates growth
*C*hange is the only constant
*E*mpowerment is mandatory
